### Career Objective

As an aspiring React.js Frontend Developer, I bring a solid foundation in web development through hands-on training. Eager to apply my skills in a dynamic team environment, I am seeking an entry-level position to contribute to innovative projects and further develop my expertise in building modern, user-friendly interfaces.

### Skills

**Expertise:** HTML5 | CSS3 | JavaScript | REST API | ReactJS | Git | Firebase | Tailwind CSS

**Comfortable:** NodeJS | ExpressJS | MongoDB | JWT | Mongoose | Tanstack Query | Axios | React Hook

**Strength:** Problem solving | patience | Communication | Team Collaboration

### Work Experience

#### Front-end Developer

Jan, 2024 - Present

#### Nexailys

86, Gardiner Street, Belmont  
Western Australia, Australia.

### Projects

**Libra Byte** - Library Management System | Team project

[Preview](#) [Front-end](#) [Back-end](#)

#### Feature:

- Offering previews of upcoming books can generate excitement and anticipation among users.
- Implementing a chatbot can provide users with instant assistance for inquiries, recommendations, and general support.
- Providing dedicated dashboards for both users and librarians allows for personalized experiences and efficient management of library resources.
- Offering PDF downloads for subscribers expands access to content and accommodates different reading preferences.

#### My Contribution

- **Login and Registration:** Users can login and register in the website. This feature created using firebase.
- **Database:** Database created using Mongodb, ExpressJs, Mongoose, and NodeJs to store all the data.
- **Add Books:** Admins can upload books including images.
- **Context Api:** I've created context api and implement in the front end. Also implement Tanstack Query and Axios.
- **Error Solving:** I've solved all the major error form front-end, back-end, and stripe payment.

**Technology:** HTML5 | CSS3 | JavaScript | Firebase | Tailwind CSS | MongoDB | ExpressJS | Mongoose  
NextJs | React Hook | Tanstack Query | Axios

## MealNest Hub - Hostel Food Management Website

[Preview](#) [Github](#)

### Feature:

- Student can explore and request meals based on categories like breakfast, lunch, and dinner.
- A membership system with different packages allows users to upgrade for additional benefits.
- The system allows admin to manage users, including making them admins and handling user subscriptions.
- This website is built using the MERN stack, with additional technologies for features like dynamic tabs, private routes, and secure application processing.

**Technology:** HTML5 | CSS3 | JavaScript | ReactJS | Firebase | Tailwind CSS | MongoDB | ExpressJS

## Jobs Hub - Job Seeking Website

[Preview](#) [Github](#)

### Feature:

- Easily navigate and discover jobs in On-Site, Remote, Hybrid, and Part-Time categories, streamlining the user's job search experience.
- Accessible dashboards empower users to manage applied, added, and posted jobs seamlessly, enhancing user interaction and job tracking.
- Grab attention with visually rich job listings, highlighting key details for quick insights into company, title, date, salary, and application deadlines.

**Technology:** HTML5 | CSS3 | JavaScript | ReactJS | Firebase | Tailwind CSS | MongoDB | ExpressJS

## Event Management - Event Management Website

[Preview](#) [Github](#)

### Feature:

- Detailed information about various event services offered, including images, pricing, and descriptions.
- Secure email and password-based authentication for clients to create accounts and access personalized features.
- Ensured responsiveness across devices, allowing clients to access the website seamlessly on desktops, tablets, and smartphones.
- To create event management website I used React, Firebase for authentication and data storage, and React Router for navigation, focusing on user-friendly design and secure authentication

**Technology:** HTML5 | CSS3 | JavaScript | ReactJS | Firebase | Tailwind CSS

## Education

### Higher Secondary

2015 - 2016

Parashuram Islamia Fazil Madrasah

### Bachelor's degree in Computer Science

2024 - Present

University of The People

## Training / Courses

### Complete Web Development Course

Programming Hero

### Introduction to Web Development with HTML5, CSS3, and JavaScript

IBM

### Meta Front-End Developer Professional Certificate

Meta

## Language

**Bangla** - Native | **English** - Advanced | **Arabic** - Advanced | **Hindi** - Fluent | **Urdu** - Fluent
